

10 Nutritious Baby Meals

TIPS:

- Focus on serving an energy-rich food (high in healthy fats or carbohydrates), a food high in iron, and a fruit or vegetable (vitamin C) at each meal
- Serve the top 9 allergens early and often. Introduce one allergen at a time. Once an allergen has been introduced, multiple allergens can be offered at a meal
- Offer adult-pinky sized food for babies with palmar grasp (~6-8 months) and chickpea sized food for babies with a pincer grasp (~9+ months)

- MEAL 1:**
